

MINERALS SUPPLY AFRICA (MSA) LTD

PROFILE

Minerals Supply Africa (MSA) Ltd is a Rwandan registered company purchasing, processing and exporting ores such as Tantalum, Tin and Tungsten.

David Bensusan
CEO

MESSAGE FROM THE CEO

I am very proud that Minerals Supply Africa Ltd, with the support of its parent company Cronimet Central Africa, is one of the founding members of the traceability scheme which enabled Rwanda and the region to develop its minerals sector.

My hope for the region is that the ICGLR system of traceability along with the iTSCi scheme will open up markets for the region's minerals worldwide to enable the development of its people.

It is important that the region develops training in health and safety, environment-friendly and sound mining operations. Over the 15 years that I have been in the country, I have seen the transformation of Rwanda into what I see as a modern day miracle.

The country is 19 years old and was on its knees after the horrendous genocide in 1994 and what it is today should be seen as an example to all nations.

It is important that the region develops training in health and safety, environment-friendly and sound mining operations. Over the 15 years that I have been in the country, I have seen the transformation of Rwanda into what I see as a modern day miracle.

QUICK INFO

Name of Company : MINERALS SUPPLY AFRICA (MSA) LTD

Region.

MISSION

- Judicious investment in mining exploitation through partnership with mining companies and cooperatives.
- Offering a geological advice for an efficient and environmental friendly mining sector.
- Advocate and implement the mineral traceability for responsible mineral supply chain

MOTTO

“Building reference partnerships in the development of the mining sector in the Great Lakes Region”

We are playing a remarkable role in boosting the Rwandan mining sector, which currently employs more than 30,000 people and among the top foreign currency earner for the country. This is in line with MSA's mission of actively supporting mining companies and cooperatives by securing funds for several millions American dollars to pre-finance mining activities.

MSA is committed to work under the iTSCi mineral traceability scheme and follow the OECD Due diligence guidance.

VISION

To be the leading producer of ores in the Great Lakes
